Twin Lakes HOA
Summary Financial Information
As of 31 Aug 2026

Cumulative Interest from Replacement Reserve and Capital Fund	**$9,681**

General Notes:

1. Dues are collected quarterly, whereas interest and other income are reported monthly.

2. The current accounting system used by our management company only allows for only one reserve account.
Therefore the Replacement Reserve and Capital Fund are treated as a single entity. This summary sheet separates the accounts.

3. Accounts Receivable (A/R) is a current asset, similar to cash, however certain accounts are likely uncollectable, at least within a "reasonable" period of time.
for such accounts. It is up to the Board to provide a policy to create an allowance for such accounts.

4. The Debit Card account is a separate checking account under Operating. It is the equivalent of Petty Cash.
The balance is normally so small, it is not shown on the corresponding pie chart but the actual amount is shown in the tablular data.

5. The Balance Sheet does not report Fixed Assets owned by the Association. These, along with their accumulated deterioration are listed on the Reserve Study Report.
There is however, a Capital Improvements account along with its Accumulated Depreciation.

6. CDARS (Certificate of Deposit Account Registery Service) spread deposits over several financial institutions to keep the total at any one institution within
FDIC deposit limits thus reducing risk.

Month Specific Notes:

1. Although the Statement of Revenues and Expenses for Reserve Income shows interest income, this is from two sources: Replacement Reserve CDARs
and Capital Fund CDARs. There is also a small contribution from the working funds of both accounts.

2. Title changed on Acct 806 - Funds From Reserve to Operating

Twin Lakes HOA Reconciliation to Monthly Financial Statements as of Aug 31 2026
